

# Testing Results

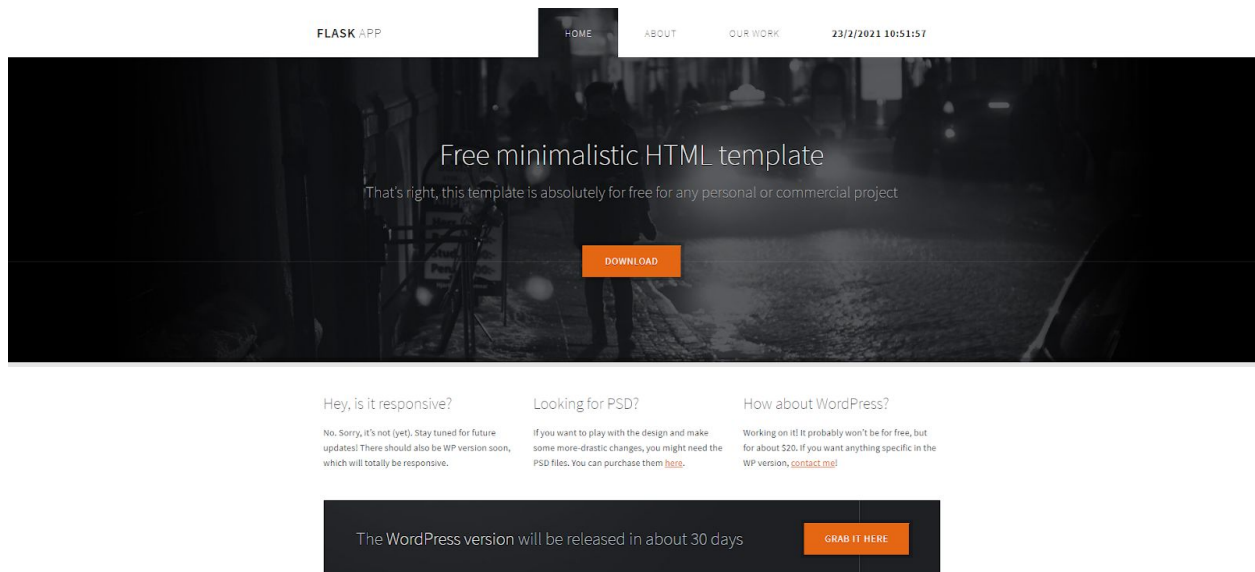

## Pylint Score

Pylint score is 6.15/10 as shown in the image below. This is due to an unavoidable error because pylint does not recognize flask as it is an external dependency. There is no technical error in the code below.

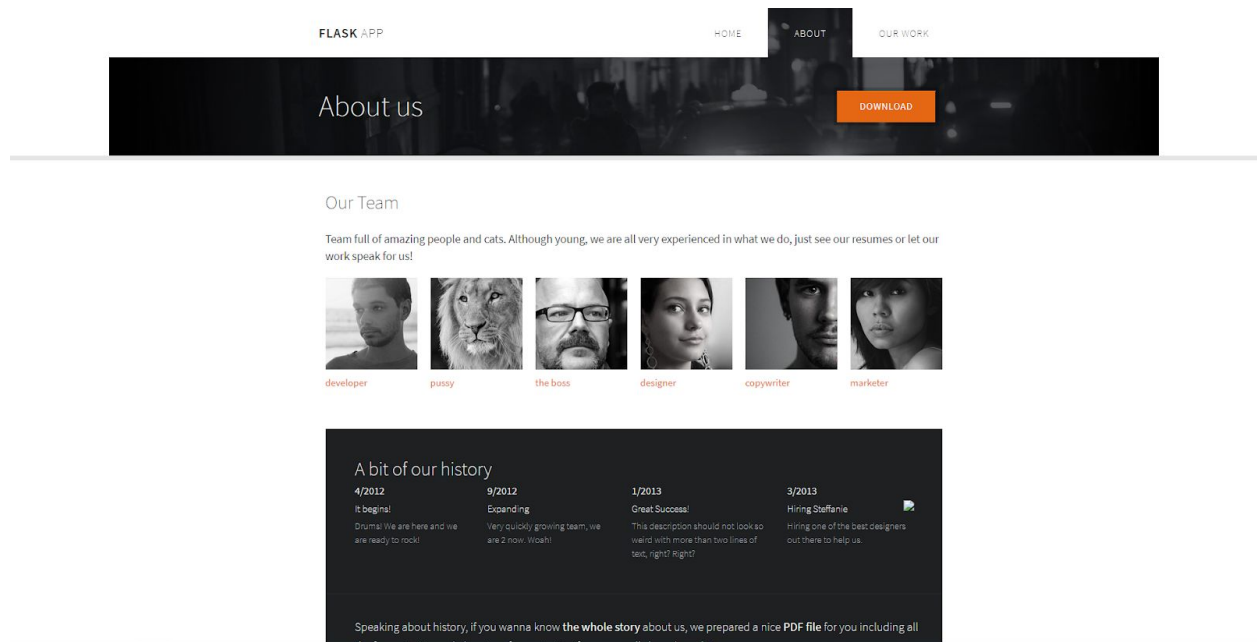

```
***** Module app
app.py:6:0: E0401: Unable to import 'flask' (import-error)

-----
Your code has been rated at 6.15/10 (previous run: 6.15/10, +0.00)
```
